

Glass Railing BH-06

APPLICATIONS

- Gyms
- Public swimming pool
- Wellness Resorts
- Discotheques/Clubs
- Hotels

FEATURES

- Easy fitting
- Stainless steel holder
- toughened glass

► DESCRIPTION

A distinctive feature of the BH-06 is the ease of installation, there is no need to drill holes in the glass for fastening. The glass panel is fixed in the holder groove with a pressure plate and two setscrews.

Glass is not included in the delivery set and is supplied on request.

When fixing the glass only with the aid of the holder without additional fixing points for height, the following conditions are recommended for the required reliability:

- the height of the railing taking into account the height of the holders should not exceed 100 cm
- the distance between the holders should not exceed 80 cm
- the lateral part of the glass behind the holders should not exceed 20 cm

BH-06 railing systems are made in the same design as PERCo turnstiles and gates from stainless steel and tempered glass, for example, speed gates and automatic swing gates with a glass panel.
